Subject: ADEQ 106 for Assumption
Attachments: Draft 404 Assumption Workplan_5.31.18.docx

Hi Kathy: I want to finalize the workplan for ADEQ's grant ASAP so they can use 106 funding for assumption development. The 106 funds are part of a performance partnership grant so workplans are pretty streamlined. The attached one page doc is a draft I think is pretty close to being fine. This one page will be inserted into the overall workplan covering multiple programs. I'm just checking with you in case you want to take a quick look to let us know if you have any suggestions. Thanks!

Sam Ziegler

Subject: RE: assumption & workplan

Hi Sam,

Here are some updates for the workplan schedule. Krista and I plugged-in most of the dates. I will need to talk to Heidi about the draft AG certification and get her opinion on what is a reasonable expectation for that deliverable.

Let me know if this is a good starting point.

Thanks
Andy

Subject: assumption & workplan

Hi Andy: Any update on the workplan as we discussed last week? Did you get to talk with Krista? I imagine that you are swamped getting ready for the stakeholder meetings next week. Regarding those meetings, Liz and I will be listening in

remotely rather than attending in person. Though attending the meeting to as an observer would be a good opportunity to meet people and better understand you stakeholder process, my daughters are both having their wisdom teeth removed on 6/6 so I want to stay near home. We do have some resources to travel to visit with you and others regarding assumption so if you see a time when that may be helpful please let us know. I think these stakeholder meetings will give us a good opportunity to learn about some of the issues that may be most important and perhaps challenging for you to address. Back to the workplan, I would like to get agreement on the workplan language at our earliest convenience so we have that under our belts and can move on.

Sincerely,

Sam Ziegler
